

Interagency Collaboration Training Series:

Establishing and Maintaining Highly Collaborative and Compliant Part C to B Transition practices that support positive outcomes for students and families

INTENDED AUDIENCE:

Part C and Part B staff working directly and indirectly with families through the IDEA Part C to B transition and/or referral process (including LEAs, Regional Center staff and vendors, public and private preschool providers, and Family Empowerment/Resource Centers).

DESCRIPTION:

This will be a six-part series (see dates below) during which exemplary practices and resources will be shared with the opportunity to discuss each topic in order to emulate practices in your region. The final four sessions will provide guidance and technical assistance to support development and implementation of effective interagency agreements.

The power of interagency collaboration, communication and integration makes the sum far more effective than the individual parts.

DATE, TIME & LOCATION

This six-part series will be offered virtually, via Zoom on Mondays (dates below) from 11:30 AM to 12:30 PM. You may attend any and/or all session dates for topics of interest (please register separately for each session on the CalECSE.org website or by clicking the links below):

January 30, 2023
